

Candyfloss between my ears
I've been getting this way for years
Now I'm so dumb, if I walk and chew gum
It's a miracle
It's a miracle

Candyfloss behind my eyes
I see no clouds, I see blue skies
Now I'm so tame, if you ask my name
And I don't think twice
It's a miracle

Get me out of here
'cause I know that if I stay
That I will melt away
Like candyfloss

This hollow heart inside of me
You can hold it up, you can hear the sea
And if violins can do me in
Is that a miracle?

That's not a miracle

Get me out of here
'cause I know that if I stay
That I will melt away
Get me out of here
Because if you make me stay
I know I'll melt away
