

# Hummingbird

Eddi Reader

Hummingbird, hummingbird  
I knew I'd find you here  
Bright lights draw you near, they always will  
All that work and worry just to stay still  
Hummingbird, hummingbird  
Always on your mind  
Sweetness you must find, does it get you down ?  
You never reach the sky and you cannot touch the ground  
Soar you will never soar  
Spin or swoop or glide  
Soar up above us all  
In the shadows you must hide  
Soar you will never soar  
Spin or swoop or glide  
Soar up above us all  
In the shadows you must hide  
Hummingbird, hummingbird  
So you spread your wings  
If you forget to sing you'll lose your song  
Then where will you go when all the pretty things have gone ?  
Hummingbird, hummingbird
