

Over It Now

Eddi Reader

Kiss me quick before I turn into a pumpkin
Nearly sick on the wall of death
But then you held me hard
Cigarette on the ghost train
And for a while I was someone else

I'm over it now
Yes I'm over it now
I was falling in love
Falling in love with love
But I'm over it now

The boy who takes the money on the waltzer
winked at me, I said keep the change
And then I smiled at you, a second-hand holiday romance
For a while you were someone else

I'm over it now
Yes I'm over it now
I was falling in love
Falling in love with love
But I'm over it now

Don't worry baby
You don't have to save me

I was falling in love
Falling in love with love
But I'm over it now
Yes I'm over it now
I was falling in love
I was falling in love with love

But I'm over it now (I'm over it!)
