

Roses

Eddi Reader

Everybody listen

Love is all around
Feel it in the breeze
Summer's coming round
Dressing up the trees
And it makes me feel alright
Watching all the signs of passing time
Seasons going round
Digging in their heels

Open up your arms to the passing time
Clear yourself a path you can leave behind
Leave a lot of love in each heart you find
Open up your heart to the passing time

Roses in the ground
Up the fields with summer light
Showers falling down
All is as it seems
If it makes you feel alright
Don't regret a thing you leave behind
Love is growing wild
Out in summer fields

Open up your arms to the passing time
Clear yourself a path you can leave behind
Leave a lot of love in each heart you find
Open up your heart to the passing time

Open up your arms to the passing time
Clear yourself a path you can leave behind
Leave a lot of love in each heart you find
Open up your heart
Open up your heart

Open up your arms to the passing time
Clear yourself a path you can leave behind
Leave a lot of love in each heart you find
Open up your heart to the passing time

Open up your arms to the passing time
Clear yourself a path you can leave behind
Leave a lot of love in each heart you find
Open up your heart to the passing time
Open up your heart

Open up your heart
Open up your heart

Fly away - they're flying away
