

Sweet Mountain Of Love

Eddi Reader

I'm looking up
I see the sky
I look and wonder
When will I see you?
Standing there
Standing there
When will I see you?

In care of my sweet mountain of love
In care of my sweet mountain of love
In care of my sweet mountain of love

I see the lightning
I hear the thunder
It brings the rain
I want you closer
Standing there
Very close to me
In the soaking rain

In care of my sweet mountain of love
Au bord de ma chere montagne d'amour
In care of my sweet mountain of love

I'm looking up (what do you see?)
I see a light (where does it shine?)
It shines for me (and does it work?)
I surely hope so
Shine for him
Shine for me
Keep looking out

In care of my sweet mountain of love
In care of my sweet mountain of love
In care of my sweet mountain of love
In care of my sweet mountain of love
