

# All For Nothing

Eddie Benjamin

Yeah

Shook me how you struck chords I didn't know  
Keep replayin' my heart like it's your favorite song  
No running away from this  
Know you laid your dreams by his

I heard it all from May in June  
Why did you lie?  
I honored you

I love straight through  
But did it mean anything to you?  
All of the memories that you threw  
All for nothing

We know it's true  
I don't need to hear your point of view  
Already made the choice to lose me  
All for nothing  
All for nothing

Silly ol' Annie  
Linked with Danny Boy  
She's driftin' off xannies  
Panties on the floor  
No running away from this  
Know you laid your dreams by his

I heard it all from May in June  
Why did you lie?  
I honored you

I love straight through  
But did it mean anything to you?  
All of the memories that you threw  
All for nothing

We know it's true  
I don't need to hear your point of view  
Already made the choice to lose me  
All for nothing  
All for nothing

I love straight through  
But did it mean anything to you?  
All of the memories that you threw  
All for nothing

We know it's true  
I don't need to hear your point of view  
Already made the choice to lose me  
All for nothing  
All for nothing  
All for nothing
