

It's Heaven

Eddie Cochran

You mean everything to me, it's heaven, heaven
All I want our love to be is heaven, heaven
Aah, is it true that you love me
Oh I swear by the stars above
And if my prayers are answered, you are my only love
Oh-oh, you mean everything to me, it's heaven, heaven
All I want our love to be is heaven, heaven
Our kind is the best in anyway, and it leaves us soon apart
But absence makes me wonder of you, here in my heart, oh-oh
You mean everything to me, it's heaven, heaven, heaven
