

A Part Of Me

Eddie Kendricks

When I was down in a rut
You came and picked me up
Turned me around and around, and around
And I felt how it feels
When someone's love is real
You gave me all a girl could give

You're in my sleep at night
You taught me wrong from right
You mean more to me than the air I breathe

You're a part of me (Oooh)
You're a part of me
You're a part of me
You're a part of me

You are all the melodies
In every love song I sing
Girl, you're constantly on my mind
No matter where I go
One thing I want you to know
I'll be thankful 'till the day I die

If Adam gave his rib to Eve
That alone should make you see
One of the things a man in love will do

You're a part of me (Oooh)
You're a part of me
You're a part of me
You're a part of me

So if Adam gave his rib to Eve
Why can't you give your love to me?
Oooh

You're a part of me (Oooh)
You're a part of me

You're a part of me
You're a part of me
You're a part of me (You're everything to me)
You're a part of me (Oooh)

You're a part of me (Oooh)
You're a part of me (Oooh)
You're a part of me
You're a part of me (Oooh)
