

# Don't Put Off Till Tomorrow

Eddie Kendricks

Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)  
Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)

Little old you, little old me  
Let's get together in love rhapsody, ooh-wee  
Don't be afraid of something new  
'Cause tonight I'm gonna do it all to you

Please, let me touch and run my fingers through your hair  
I'll kiss and love the foot that some men wouldn't dare, ooh

Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)  
Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)

Time can be either day or night  
My way of lovin' is like a stick of dynamite  
I'll satisfy, I won't deny  
Anything your little hearts desires

Have you ever met a man with compliments like me?  
Who can tell you what he can do, and write a guarantee?

Oh, don't put off till tomorrow  
What you can do today, let's talk about makin' love (right now)  
Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)

Please, let me touch and run my fingers through your hair  
I'll kiss and love the foot that some men wouldn't dare, oh

Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)  
Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)  
Don't put off till tomorrow  
What we can do today, let's talk about makin' love (right now)  
Don't put off till tomorrow...
