

Don't You Want Light

Eddie Kendricks

Light, light, don't you want light?
Oh, your heart will see more easily
The love it has for you and me
Don't you want light?
Oh, the light of day will pave the way
And open up your heart today in light

So attention, all you people livin' in darkness (darkness)
Not everybody can see the road up ahead (ooh...)
But darkness only cause you sorrow (sorrow)
The truth is in light, and it will show you the way

Don't you want light?
Oh, your heart will see more easily
This life begins for you and me
Don't you want light?
Oh, your heart will sing a melody
A simple song called "Unity" (light)

So attention, all you people livin' in darkness (darkness)
Not everybody can see the road up ahead (ooh...)
Life-long dark shadows may haunt you (haunt you)
Loneliness has told you that you need a friend

Don't you want light?
Oh, your heart will see more easily
The love it has for you and me
Don't you want light?
Oh, the light of day will pave the way
And open up your heart today in light

So attention, all you people livin' in darkness (darkness)
Not able to see the road up ahead (ooh...)
Darkness is gonna cause you sorrow (sorrow)
The truth is in light, and it will show you the way

Don't you want light?
Oh, your heart will see more easily
This life begins for you and me
Don't you want light?
Oh, your heart will sing a melody
A simple song called "Unity"

Light, light, oh light... don't you want light?
Light, light, oh light... don't you want light?
Light, oh light... don't you want light?
Light, light, oh light... don't you want light?
Light, light, oh light... don't you want light?
(I want light, you want light, ooh yeah...)
Light, light, oh light... don't you want light?
(Don't you want light?)
Light, light, oh light... don't you want light?
(Your heart will see more easily, the light, mmm)
Light, light, oh light... don't you want light?
(You can pave the way with light, don't you want light?)
Light, light, oh light... don't you want light?
Light, light, oh light... don't you want light?

Light, light, oh light... don't you want light?
Light, light, oh light... don't you want light?
Light, light, oh light... don't you want light?

Don't you want light?
Oh, your heart will see more easily
The love it has for you and me
Don't you want light?
Oh, the light of day will pave the way
And open up your heart today in light, in light...
