

Hooked On Your Love

Eddie Kendricks

I can feel your fire burnin' my veins one day
I can love you please darling don't ever go my poor sense of right and wrong get all twisted vague and lost

But how can I let you go when I'm still hooked on your love? (Your love, your love)
I wish I had the power to leave you alone but when I hear your moanin' baby don't ever go
I tell myself that same ole lie that I'm goin' love you one last time

But how can I let you go when I'm still hooked on your love? (Your love, your love)
I know it won't be long before they catch us but when I get the urge to hold you tight
I'm willing to make any price 'cause I'm hooked on your love yeah baby
I'm hooked on your love

How can I let you go when
I'm still hooked on your love (Your love, your love, your love, your love)
