

I Did It All For You

Eddie Kendricks

I know I made you cry with some of those crazy things I did
And lots of times you thought that I was acting like a kid
But I want you to know my love, that everything I did
I didn't do for myself, I did it all, I did it all for you
I may have said a lot of things you didn't understand
But all I ever tried to do was lend a helping hand
All I ever wanted darling, was to be your man
I thought you knew, I did it all, I did it all for you
Yeah, I did it all for you
Alright sometimes I cheated
And yes, I guess I lied every now and then
But before you go I want you to know
How much I cried darling, darling, darling ooh baby
Someday you'll be looking back and you'll see I'm not so bad
When you think about all the joy and happiness we had
The times I made you happy when I was feeling sad and blue
I did it all, I did it all for you
I did it all for you so go on
(Baby)
Go and leave me if you want to
But I did it all for you, I did it all for you
I did, I did, I did it all for you
I did, I did, I did it all for you
