

# The Thin Man

Eddie Kendricks

Come get your tiny Tim

Baby, I can feel you're loving me  
Now I've got all this power  
And I'm built for speed  
I'm built for speed

Heavy weights can fool  
You often guaranteed  
Love comes in a small package  
Better made to please

Come get your tiny Tim  
From me call the thin man

Baby, you'll get your change with me  
All of those big ole conversations  
I stride to please I want to please

The love light will burn all night guaranteed  
Will surpass limits and all that is known  
Come get your tiny Tim  
From me I'm the thin man

I better never lose your love  
Ounce you feel the love of the thin man  
I better never lose your love  
Ounce you love feel the love of the thin man

My love is guaranteed  
I'm the thin man  
I've got what you need  
Call the thin man

Don't make no mistakes  
I'm the thin man  
And I better never lose your love  
I'm the thin man
