

Trust Your Heart

Eddie Kendricks

Trust your heart ah
Love caught you off guard
I eased into your heart
Objections overruled
By sweet sensations now
Your mind is all confused
Feelings growing strong
But you're afraid then I'll lead you wrong
The need to take a chance
Keeps running through you
But you're too scared
That you might lose

Trust your heart
Trust your heart baby
Let those good vibrations
Guide your way
Trust your heart
Trust your heart baby
Can't you tell
That love is here to stay
Trust your heart

There's no place to hide
Let me fill the need inside
Why try to play it cool
Like I don't move you girl
I know you're not that strong
Stay with me tonight
Give me a chance to love you right
Just let my waiting arms try
And convince you that you've found
That you've found a place
Where you belong

Trust your heart
Trust your heart baby
Let those good vibrations
Guide your way
Trust your heart
Trust your heart baby
Can't you tell
That love is here to stay
Trust your heart
