

Where Do You Go (Baby)

Eddie Kendricks

Where do you go, where do you go
Baby?
Where do you go, where do you go
Baby?

Where are you
When you're not at home
I'm tired of the echo
Of your ringin' phone
I tried to ignore the warnin' sign
That you're too busy half the time

Like an illness gets worse
Untreated with time
Less and less
I feel sure that you're mine

Where do you go, where do you go
Baby?
When you're not, when you're not
Here with me
Where do you go, where do you go
Baby?
Ease my mind
Tell me please

Where are you
When you're not here now?
You say you just
Like to ride around
Why can't I ride along with you?
There's nothing else I'd rather do

You're like an iceberg that I'm trying to melt
Don't make me warm to somebody else

I wanna know
(Where do you go, where do you go)
Where do you go, where do you go, baby?
When you're not, oh
When you're not with me, ydah
Where do you go, where do you go
Baby?
Ease my mind
Tell me please

Don't wanna suffocate ya, or learn to hate ya
I just wanna know my place in your life

Where do you go, where do you go
Baby?
When you're not, when you're not
With me
Where do you go, where do you go
Baby?
Ease my mind
Oh, tell me please

(Where do you go, baby?) Where do you go, baby?
(Where do you go, baby?) Where do you go?
Well I wanna know where, hey (Where do you go, baby?)
Ease my mind, ease my mind (Where do you go, baby?)
Ho oh oh, where do you go, baby? (Where do you go, baby?)
Ease my mind, oh oh oh oh oh (Where do you go, baby?)
