

Pull together

Eddie Money

I, I want you to be mine, but I want you to be free at the same time

To make no promises that can be broken, no empty words to be spoken

And I want you to be my girl, I do not need to be - or rule your world

I guess this time in my life I tend to hold on much too tight

Oh, let's pull together - both hearts through the fire

'Cause sooner or later, I can see us standin' shoulder-to-shoulder

Gotta pull together - two hearts, one desire

'Cause sooner or later, we've got to stand for one another

If you walk a mile in my shoes, I will walk a mile in yours

And we'll find a common bond - there's a love here to be found

If we could come to understand when we give it, it comes back a gain

And if we dig deep, deep enough, we will find it in each of us

Oh, we gotta pull together - both hearts through the fire

'Cause sooner or later, I can see us standin' shoulder-to-shoulder

Let's pull together - two hearts, one desire

'Cause sooner or later, we've got to stand for one another

Ooo.. here's to us, I see us getting' better

It's funny, but as time goes by, you'd think we'd love and learn

But I'm into faith, now, as I was then

Just because we see the truth, it's not easier to hold

Just because we know it's hard, don't get left in it alone

I've been tellin' you, forever
