

Is There A Country Song On The Jukebox

Eddie Rabbitt

Is there a country song on the jukebox
For this lonesome cowboy just passing through?
'Cause it always makes me feel
Like I'm not so many miles away from my home
If there's a country song on the jukebox

And pour me something that will help me
Make it through another lonely night
'Cause in the morning, I'll be rollin'
Headin' down that highway one more time

Is there a country song on the jukebox
For this lonesome cowboy just passing through?
'Cause it always makes me feel
Like I'm not so many miles away from my home
If there's a country song on the jukebox

And pour me something that will help me
Make it through another lonely night
'Cause in the morning, I'll be rollin'
Headin' down that highway one more time

Is there a country song on the jukebox
For this lonesome cowboy just passing through?
'Cause it always makes me feel
Like I'm not so many miles away from my home
If there's a country song on the jukebox
Hey, play a country song on the jukebox
