

# It's Always Like The First Time

Eddie Rabbitt

Heaven stirring in my bed  
Raising up your pretty head  
Like an angel in distress  
And after all this time  
Baby, you're still the best

And it's always like the first time  
Every time we touch  
You feel so new to me  
And it's always like the first time  
Every time we kiss  
Baby, what you do to me?  
Ooh

Sometimes when I look at you  
I can't believe all we've come through  
'Cause you're prettier today  
And when you walk in the room  
You still take my heart away

And it's always like the first time  
Every time we touch  
You feel so new to me  
And it's always like the first time  
Every time we kiss  
Baby, what'd you do to me?

And it's always like the first time  
Every time we touch  
You feel so new to me, new to me  
And it's always like the first time  
Every time we kiss  
Baby, what'd you do to me, do to me?

It's always like the first time  
Every time we touch  
You feel so new to me, new to me  
Ooh  
Ooh
