

# You Are Everything to Me

Eddie Rabbitt

When you're gone, this house is so empty  
There's no sunshine in the room  
All I hear is the echo of my own footsteps  
Then you drive in that driveway  
And walk up that sidewalk  
And there's a feeling here that I just can't describe

Baby you are everything to me that's for certain  
Without you my whole world would stop turning  
And my life, would mean nothing  
If you didn't love me  
Baby you are everything to me

What a time when I had nothing

No future no plan  
Just a fool walking round in little circles  
Then you walked right out of heaven  
And kissed me like an angel  
And my heart lit up like the 4th of July

Baby you are everything to me that's for certain  
Without you my whole world would stop turning  
And my life would mean nothing  
If you didn't love me  
Baby you are everything to me

Baby you are everything to me
