

We Rule This World

Eddie Stoilow

My dears, you make me feel so special
With you, time is unforgettable
You turn me on, you turn me on
You turn it on, this beautiful moment

We have it all
We're taking over
We rule this world
With love, with love

We have it all
We're taking over
We rule this world

My dears, let's make this night so sensual
Me and you, performing a ritual
You turn me on, you turn me on
You turn it on, this beautiful moment

We have it all
We're taking over
We rule this world
With love, with love

We have it all
We're taking over
We rule this world
With love, with love

We have it all
We're taking over
We rule this world
With love, with love

We have it all
We're taking over
We rule this world
With love, with love
