

Matter Of Time

Eddie Vedder

As we arise with the sun in our eyes, catch a break from the dark
Still times when nothing's alright as we bandage up all our parts

Well I'm a builder of bridges and I could fly us up to the moon
When your time is limited, well nothing happens too soon

Navigate, come find a way, our differences be damned
So much space between us in the distance of our hands

Stakes are raised to elevate, just a second to understand
What you give, this will to live

You got the cure, I'll fight the fight
It's just a matter of time

Submit the evidence and take the stand, let the truth testify
If I were but a grain of sand I'd still resist this tide

But we're not alone on this crowded shore and times they do demand
Shrink the space between us, a reaching of a hand

Stakes are raised to elevate, just a second to understand
What you give, this will to live

You got the cure, I got the fight
It's just a matter of time

A matter of time
Just a matter of time
A matter of time
Matter of time
Matter of time
A matter of time
A matter of time

I found myself when I found my tribe
Now I know what it's like to feel alive

I'll take the joy, I'll take the pain
We're just like you, we're all the same

A matter of time
Matter of time
Matter of time
Matter of time

Matter of time

Matter of time
