

# Tender Mercies

Eddie Vedder

It came to nothing  
This longing  
This long  
Your tender mercies  
They weren't enough  
Weren't enough

Oh, what I said, it's taken us  
So long to learn, the world is  
Coming down around us while  
We wait our turn  
Now we're running out of road  
And hope, where have you gone?

They'll try to warn ya  
It's a cruel world  
A cruel world  
They'll mislead and misinform you  
Don't you turn  
Don't you turn

Oh, what I said, it's taken us  
So long to learn, the world is  
Falling down around us while  
We wait our turn  
Now we're running out of road  
And hope, where have you gone?

Beyond that light storm in the air  
I wonder if you'd hear it now  
An endless storm come ringing through the air

Oh, what I said, it's taken us  
So long to learn, the world is  
Coming down around us while  
We wait our turn  
Now we're running out, still  
Plain in doubt, still  
Jumping from the windows of love

Your tender mercies  
They weren't enough  
Weren't enough
