

Castle Made Of Walls

Eddy Arnold

(We'll hide away in our castle made of walls)

Close the blinds, throw the drapes
Lock the doors
Tonight our home will be
Just mine and yours

Take the phone off the hook
So no one will intrude
No jingling bell to break the spell
And spoil the mood

Turn down the lights
And make the music soft and low
There's no one else on earth but us
For all we know

We're king and queen of all we survey
Here in our love hide away
Till daylight falls
On our castle made of walls

Turn down the lights
And make the music soft and low
There's no one else on earth but us
For all we know

We'll hide away in our castle made of walls...
