

## Chapel On The Hill

**Eddy Arnold**

I can hear the organ playing gentle strains of peace be still  
I can see my mother praying in the chapel on the hill

While the choir turns the pages in my heart I feel a thrill  
Now they're singing Rock of Ages in the chapel on the hill  
How that vision makes me ponder and I know it always will  
Till my weary footsteps wander to the chapel on the hill
