

From This Minute On

Eddy Arnold

(From this minute on) my heart belongs to you
From this minute on I'll never be untrue
Every minute every hour every day
I'll give all the love I have in every way

From this minute on you're all I'm living for
From this minute on I'll need you more and more
And I promise that you'll never be alone
I'll be by your side from this minute on

With every beat of my heart every breath that I take
Darling you'll be a part of every move that I make
From this minute on I'll never change my mind
From this minute on until the end of time

No greater love the world has ever known
That my love for you from this minute on
