

## I Guess I'll Never Understand

Eddy Arnold

They talk about the golden rule  
But if I'd give a helping hand  
They'll laugh and say I'm just a fool  
I guess I'll never understand

My friends all wished the best for me  
But when success was in my hand  
They turned away in jealousy  
I guess I'll never understand

Then I found you and at last I knew  
Our love was real if nothing else was true  
Then I believed in life once more and  
All the lovely things we planned

And now you're walking out the door  
I guess I'll never understand...
