

I Need Somebody

Eddy Arnold

Eagle make home on the mountain sparrow make nest in the tree
But I'm all alone and need somebody to make a little home with
me
River make way through the valley right into the arms of the se
a
Makes me realize I need somebody to make a little love to me

Someone I can hold and kiss goodnight someone who will always t
reat me right
Someone I can tell my troubles to when I'm all alone and feelin
g blue
Some men don't want a woman they just want to be free
But I know that I'm gonna need somebody to make a little love t
o me eternally
