

It's Only Love

Eddy Arnold

(It's only love it will go away)

If I don't act myself when I'm around you
And I recall the things you used to say
Well, I just haven't learned to forget like you do
But it's only love, it'll go away

It's only love, it'll go away
At least that's what you say
And if I call at night when you're sleeping
Just to talk about yesterday

Then before I hang up these mem'ries start weeping
It's only love, it'll go away

But it's only love, it'll go away...
