

Just Enough to Start Me Dreamin'

Eddy Arnold

You started a flame I can't drown
Then told me you'd see me around
All I have to do is get a glimpse of you and then
That's just enough to start me dreamin' again

You promised a love I could hold
Then you turned away so distant and cold
All I have to do is hear about you from a friend
And that's just enough to start me dreamin' again

And as long as I dream you'll be on my mind
And lately I've been dreaming all the time
All I do is think about you and the dream that didn't end
And that's just enough to start me dreamin' again

And that's just enough to start me dreamin' again...
