

Little Swallow

Eddy Arnold

Little swallow please take wing and bring her to me
Bring back the one I'm longing to see
Little swallow please take wing and bring her to me
Bring back my true love to me

Little swallow when I mended your wing so long ago
You said that come a day you'd bring the sun my way
Little swallow now I need a friend a friend who will be true
Please say you'll see me through I'm depending on you
