

To Life

Eddy Arnold

Life you have been good to me
Life have you chosen me to give your blessings to
Life you served your finest wine
I drank it down to find my glass was always full
Life sometimes you made me sad
Although I always had the very best
A friendship love and happiness
Tonight I raise my glass to you
I hope that I been through to life
[ac.guitar]
And yes you you served your finest wine
I drank it down to find my glass was always full
Life sometimes you made me sad
Although I always had the very best
A friendship love and happiness
And now when it's all been said and done
I dedicate this song to life
