

# Unbreakable Heart

**Eddy Arnold**

Unbreakable heart won't you please be kind  
My love for you just feels so fine  
My last love affair was lost right from the start  
So I'll tell you now I've got an unbreakable heart

The first time that we loved our love was just for fun  
We won't walk down that road again until we're two are one  
Wrote the words right down in black like ink  
Won't anyone take my love with just a wink  
My last love affair was lost right from the start  
So I'll tell you now I've got an unbreakable heart
