

When There's A Fire In Your Heart

Eddy Arnold

When there's a fire in your heart
Break the glass, sound the alarm
Call on me I'll be there
Instant service, speedy fast
I was your first, I'll be your last
No matter what you have in between

When there's a fire in your heart
Break the glass, sound the alarm
When he's not all he seems
Instant service, speedy fast
I was your first, I'll be your last
No matter who you have in between

There's been hearts spells
In close spells ever since we met
I've seen your small fires, your big fires
But I won't give 'em yet

Oh, someday you'll yearn for your heart's gonna burn
For that old familiar glow
You'll be burned out on smoke
Out and come back to me I know

When there's a fire in your heart
Break the glass, sound the alarm
When he's not all he seems
Instant service, speedy fast
I was your first, I'll be your last
No matter who you have in between

So I'm hanging on your sea
You'll come running back to me
No matter who you have in between...
