

Will You Always

Eddy Arnold

Will you always
Always love me like you're lovin' me tonight

Will you always walk beside me from right
Is it springtime or the moonlight
That makes this moment see so right
Do you always want my kisses like tonight

How my heart beats in mad confusion
At the things I'm dreaming of
Is this just one more illusion
All in the name of love

When the shadows gather round me
Will you still be my guiding light
Will you always
Always love me like tonight
