

Come Along To My Place

Eddy Grant

Come along to my place
I love you, baby
Gimme loving up to my face
Come along to my place
I love you, baby
Gimme loving up to my face

You've got the love that I've been waiting for
Love was never so complete
Together, you and I, we know the score
Girl, you knock me off my feet
You never wanna leave the dance with me
Even when the music ends
Tonight's a special night, come go with me
I wanna be more than friends
I wanna be more than friends

Come along to my place, whoo!
I love you, baby
Gimme loving up to my face
Come along to my place
I love you, baby
Gimme loving up to my face

I wanna know if you feel good tonight
Really when the music played
I feel that heat up your sweet firelight
And my night turned into day
The weather beating on your windowpane
Trying hard to calm the night
The sheer desire and you by my side
We'll make love in the rain
We'll make love in the rain

Come along to my place
I love you, baby
Gimme loving up to my face
Come along to my place, whoo!
I love you, baby
Gimme loving up to my face

Come along to my place
I love you, baby
Gimme loving up to my face
Come along to my place
I love you, baby
Gimme loving up to my face

You've got the love that I've been waiting for
Love was never so complete
Together, you and I, we know the score
Girl, you knock me off my feet
You never wanna leave the dance with me
Even when the music ends
Tonight's a special night, come go with me, whoo!
I wanna be more than friends, whoo!
I've gotta be more than friends

Come along to my place, whoo!
I love you, baby
Gimme loving up to my face
Come along to my place, ooh
I love you, baby
Gimme loving up to my face

Come along to my place
I love you, baby
Gimme loving up to my face
Come along to my place, ooh
I love you, baby
Gimme loving up to my face
