

It's Our Time

Eddy Grant

Don't worry about a thing, babe
I can give everything you want
We'll find our own small corner
And get down, honey

Oh, baby, it's our time
It's our time
My time, and your time
Our time, it's our time
My time, and your time

You don't have to take second best no more
You don't have to, not anymore, no
Don't have to take second best no more
Don't have to wear a holie vest no more
I say you got to hold your head up bravely, baby
The main road, the east coast is yours
And when you smile, your sexy smile
You know I, I wanna give you my world

'Cause it's our time, it's our time
My time, and your time
One more time, my baby!
'Our time, ooh, it's our time
My time, and your time

Ever since the time of Ham Sham and Japhet
It seems we've been trying to make it
Oh, ever since the time of the prophet
It seems we've been taking it, taking it
Oh, what a clever fool your master I
Who's forever faking it, faking it
Oh, baby, when you smile, smile, your sexy smile
You know I, I wanna give you my world

'Cause it's our time, it's our time
My time, and your time
Love you, baby!
Our time
I said, I love you baby
It's our time
Oh, I love you, child
My time
You know I love you
And your time

Don't have to take third best no more
I say it 'cause we're in the road now, now, now
Don't have to take fourth best no more
I say it 'cause I know it for sure now, baby
We just got to share the better
No law could ever bring us together
You don't have to think about third best
And no, you don't have to pass no test

'Cause, baby, it's our time
It's our time

My time, and your time
Our time, it's our time
My time, and your time
I wanna testify!

Our time, it's our time
Hey, baby!
My time, and your time
Our time, it's our time
My time, and your time...
