

Restless World

Eddy Grant

You think that you know too much for me
When in truth and fact you don't know what you should
Jubilation, allegation
Screaming hatred, naked violence and no legacy of love

I'm in a restless world, so much blood
I'm in a restless world, the love's gone
I'm in a restless world, so much gold
I'm in a restless world, the world's cold
I'm in a restless world Mama
I'm in a restless world Mama

Pelting stones you grow, the armoury
Simulating warfare, power struggles blow
Tribulayting, congregayting
With your nuclear power acid showers
Is this what you know?

I'm in a restless world, so much blood
I'm in a restless world, the love's gone
I'm in a restless world, so much gold
I'm in a restless world, the world's cold
I'm in a restless world Mama
I'm in a restless world Mama

You've got no place to go in history
When you know inside that love will conquer all
And you're racial and you space shuttle
Sit and wait outside like an asteroid
Just to fire down below

I'm in a restless world, so much blood
I'm in a restless world, the love's gone
I'm in a restless world, so much gold
I'm in a restless world, the world's cold
I'm in a restless world Mama
I'm in a restless world Mama
