

Water

Eddy Grant

Water, water look what you brought into my life
Water, water you're a misery to me
Water, water look what you brought into my life
Water, water you're a misery to me

It seem like yesterday never knew nothing about ya
I go work just to pay to keep my little belly from hunger
We don't fight no one till you come running to me

You bring them company fetch you away in a bottle
They sell you back to me soon they applying a charter
I couldn't fight no one till you coming running to me

They changed my destiny now that you fool everybody
And it be good to see everybody drilling for money
I didn't see no one till you come running to me

Seems like yesterday that I found you way out yonder
The sound you seemed to make told me you were from down under
