

We Got To Work It Out

Eddy Grant

Been in rage, but feeling better
Something to talk about
I never knew but I discovered
Your love is all around town
Hey hey hey
Caught you bang in the middle of your tracks yeah
You made me feel so bad
Hey hey hey
Got control of my bleeding heart yeah
Don't wanna feel so sad

We got to work it out... baby
We got to work it out... ooh darling
We got to work it out... it's a sure thing
We got to work it out... ooh, ooh, ooh

I tug on you, but you deliver
A mighty slap on my face
I'm talking to some crazy giver
Wrong time wrong place
Hey hey hey
Walk them streets all hours of the night yeah
What's so sweet and nice
Hey hey hey
Doubtful roads, sleazy old dives yeah
Ain't no kind of life

We got to work it out... baby
We got to work it out... hey, hey, hey, hey
We got to work it out... it's a sure thing
We got to work it out... aow darling, yeah

Want you back and we'll be alright yeah
Take a second chance
Hey hey hey
What good's love if we're being uptight yeah
Let's see some sign of life

We got to work it out... baby
We got to work it out... hey, hey, hey, hey
We got to work it out... it's a sure thing
We got to work it out... baby yeah yeah

No sweat no, no fuss no, we got to work it out
No sweat no, no fuss no, we got to work it out

Hey hey hey
Want you bad let's make it up right now
Can't you see so far
Hey hey hey
I'm really choked when I see you at night yeah
Let's go to my car, come on baby

We got to work it out... baby
We got to work it out... ah ah ah ah
We got to work it out... it's a sure thing
We got to work it out... ooh baby
