I've become tired of everything darling
All day I wanna lay around with you darling
You smile in your sleep, I guess our love was good

My darling gives me an icy drink
Add to that the cool wind is all I need darling
Um sweeten little juicy baby
For you, I have boom boom power

Our heat is hotter than the temperature right now
This is all because of you
Meenie mini mo, wherever I choose
You're so pretty that I can't just leave you alone
That's how you are to me, it's crazy
It's so hot but I want to hold you closer
On a hot day, you make me hotter, my sweet darling

Our heat is hotter than the temperature right now
This is all because of you
Meenie mini mo, wherever I choose
You're so pretty that I can't just leave you alone
That's how you are to me, it's crazy
It's so hot but I want to hold you closer
On a hot day, you make me hotter, my sweet darling

I want to throw on some clothes and
Go to a terrace cafe and show you off
You smell like pina colada, banana, coconut
A fun afternoon with you

Each time we meet darling
My smile keeps coming out

Don't be shy
Just drink this lemonade
I love you, my sweetly-scented darling

Oh sweeten little juicy baby

I've become tired of everything darling
All day I wanna lay around with you darling
Each time we meet, we're falling in love
It's so hot but we're gonna keep going
I love you every day but you're still my sweet darling
