

# Miles Apart

Eddy Kim

You know what's coming  
It's about time for us  
To break apart  
I've been wondering all night  
Till when we can last  
We'll be oceans away  
There's just noway  
It's gonna work

Baby, no more, no more trying  
No more, no more good nights  
Now I don't need to take long  
Distance airplanes anymore  
Our nonsense love is over

I don't wanna be with you forever  
Our lives will be the same  
Just not together  
I don't wanna lie  
That I still think of you  
When we're miles apart  
When we're miles apart

I know when we locked eyes  
It felt just so different  
We just knew we will be together  
Forever and ever  
And I thought that  
We could get through it  
Even if I got on that plane I did

Baby, no more, no more trying  
No more, no more good nights  
Now I don't need to take long  
Distance airplanes anymore  
Our nonsense love is over

I don't wanna be with you forever  
Our lives will be the same  
Just not together  
I don't wanna lie  
That I still think of you  
When we're miles apart  
When we're miles apart  
When we're miles apart
