

Easy Time

Eddy Raven

I realize that we don't talk enough
Living on the run seldom does
You don't have to worry we're all right
You're the only sure thing in my life

Easy time lying here loving you doing easy time
Easy time I'm still loving you doing easy time

So close your eyes and go to sleep
Outside this room there's no one else but me
You're the only one I care about
You're the only one I couldn't live without

Easy time lying here loving you doing easy time
Easy time I'm still loving you doing easy time

Easy time doing easy time
Lying here in love doing easy time
Doing easy time doing easy time
Lying in this love doing easy time
