```
Chorus:
Let's get it down, down, down, oh, oh!
Come on!
I see love coming down while we are singing,
I'll be playing my guitar on other song.
I can hear from my heart the people singing,
I'll be singing in my song all over the world.
Love me, love me, love me on other song, the song!
Hold me, hold me, hold me the rise of the song, the song!
I wanna dance
I wanna dance, dance, on other song!
I wanna dance, dance, on other song!
I wanna dance, dance, on other song!
Everybody say!
Chorus:
Let's get it down, down, down, oh, oh!
Come on!
Watch the sun, rising up while we are singing,
No more way than we know to for riser sound.
Hear the song from afar, the people singing, the people willing.
With a love with was ran (??) we all over the world.
Love me, love me, love me on other song, the song!
Hold me, hold me, hold me the rise of the song, the song!
I wanna dance, dance
I wanna dance, dance, on other song!
I wanna dance, dance, on other song!
I wanna dance, dance, on other song!
Everybody say!
I respect all the DJs rocking in the world,
The world wide world.
