

My Dream

Eddy Wata

Everybody say, come on
shake the boom boom
the dancehall
the music
Got the feeling now?
You say:

My dream i want my love
my love is just for you
my dream i want my love
only to be with you

My dream i want my love
my love is just for you
my dream i want my love
only to be with you

I like the booty girl
girl I like the way you roll it
You roll it a booty girl
