

## Fair Weather Friend

Eden's Bridge

When I'm down you're always missing  
When I'm fine you take your share  
When things go bad you're best forgotten  
I could think that you don't care  
Walking in circles  
We're going nowhere now it seems  
Nothing is certain  
Of what becomes of you and me

Fair weather friend of mine  
Fair weather friend of mine  
Fair weather friend of mine  
You know you're no good for me

It all came home a week last Sunday  
Things you'd said and things I'd seen  
That when I live a week of Wednesdays  
You will be no good for me

There's something missing  
And what it is is what I need  
I'm going searching  
For a friend who'll never leave me
