

## Looking Down

Eden's Bridge

I am looking for your footsteps  
I am tracing where you walked  
I'm intent on you my leader  
And the ways I have been taught  
Looking down

I am walking in your footsteps  
And I long to feel their warmth  
As I place all my reliance  
Upon you my sovereign Lord  
Looking down

I'm looking down, looking down  
I'm looking down, looking down

I am watching for the narrow way  
I am waiting for your call  
As you bid me match your footsteps  
Walk the way to where you've gone  
Looking down

I'm looking down  
Now I will search among the patterns at my feet  
And I will trace them 'til we meet

I am watching for the narrow way
