

Stinger

Eden xo

You like cars and I like stars
On Mulholland drive
Innocent crush that went too far
Suffocating in your eyes
Ooo-ooo-ooo

Honey honey honeybee
Get your stinger out of me
I am not the killing kind
Ah-ah-ah-ah-oh
I could pull your wings apart
Stick you in a cookie jar
If you fucking break my heart
Ah-ah-ah-ah-oh

Do you understand
What it's gonna take to be my man
Do you wanna fall in love with me
Turn it around or set me free

Take a chance or take it back
Tell me it's for keeps
Rest my head against your chest
And we both fell asleep
Ooo-ooo-ooo

And I really wanna love you, love you
And I really wanna show you how I care
And I really wanna love you, love you
And I really wanna know that you'll be there

Do you understand
What it's gonna take to be my man
Do you wanna fall in love with me
Turn it around or set me free
Do you understand
What it's gonna take to be my man
Do you wanna fall in love with me
Turn it around or set me free

Ah ah ah...

And I really wanna love you, love you
And I really wanna show you how I care
And I really wanna love you, love you
And I really wanna know that you'll be there

Do you understand
What it's gonna take to be my man
Do you wanna fall in love with me
Turn it around or set me free
Do you understand
What it's gonna take to be my man
Do you wanna fall in love with me
Turn it around or set me free

And I really wanna love you, love you

And I really wanna show you how I care
And I really wanna love you, love you
And I really wanna know that you'll be there
And I really wanna love you, love you
And I really wanna show you how I care
And I really wanna love you, love you
And I really wanna know that you'll be there
