

2020

EDEN

She says I'm no good with my hands
But I held up the whole sky for her
I want to forget my future and jump into the dark

I would've caused so much trouble
If I'd had you to sneak out with me
All our future's melted in your hands, they're drowning us

Still I say things like, "No hindsight in 2020"
"Got my sight checked, that's precious to me"
"Can't blindsight me, I'm well aware
If you were me, I'd burn this out
To the sound of the daylight slipping from me"
"All our yesterdays spent misguided, sliding'"
And now our heels worn down and self aware
With dreams of stopping

(Dreams are stopping us)
You must have me messed up with somebody else
You got me mixed up
You got me stressed out
Youth spent plaited under walls, waterfalls
Walls can talk to things like
(Dreams are, dreams are)
(Dreams are stopping us)
You must have me messed up with somebody else
You got me mixed up
You got me stressed out
Youth spent plaited under walls, waterfalls
Walls can talk to things like

Still I say things like, "No hindsight in 2020"
"Got my sight checked, that's precious to me"
"Can't blindsight me, I'm well aware
If you were me, I'd burn this out
To the sound of the daylight slipping from me"
"All our yesterdays spent misguided, sliding'"
And now our heels worn down and self aware
With dreams of stopping
With dreams of stoppi-
Dreams worth stopping for

Yeah, our progress is just really slow because we're trying to
just find a way through
