

## (Cold Water freestyle)

EDEN

But where we're going I don't know  
I know it's not the last time now  
I can't seem to slow this bitch down  
I don't want to talk about it

Watch the time fly  
Moon rise  
Sun set  
Cold night  
Cold water  
High tide  
Locked eyes  
Slow motion  
Soft focus  
Fade from me  
Lost on you  
Next time  
Stay with me  
Keep growing  
Can't fight it  
Losing time  
Brakes grinding  
Sliding  
Hard times  
Confiding  
It's a long way to go

But where we going I don't know  
I know it's not the last time now  
But I hope this one my last time 'round  
I just want to laugh about it

Don't lose it now
