

Elsewhere

EDEN

Waves crashing over me
Light disappeared
Touch myself for some dopamine
What a fucking loser
I miss it bad but I hate it here
I'm out crying
Started to phoenix in ash land
FaceTimed a blaze in slow motion
(Dazed and confused)
(Can you hear me?)

I watched it collapse in my palms
I been feeling the love I had fall
Through open arms
And bleeding out
I wish you made it back you know
We should've lasted years
Call it fate if it helps you

To let this go
I don't want the things I love no more
It's cutting me up
Old friend, don't go
I don't wanna feel alone no more
It comes and it goes
It comes and it
It comes and it goes

I saw your eyes in a dream last night
So used to not getting to say goodbye
Melting away with the changing light
You know you don't have to stay
I'll have to glow in the dark
Of course the past can be changed
I watched it bend while I talked
The feelings all interchange
I feel you here when you're gone
And through it all let it fade
If it helps you

To let this go
I don't want the things I love no more
It's cutting me up
Old friend, don't go
I don't wanna feel alone no more
It comes and it goes
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes

It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes
It comes and it
It comes and it goes

How'd you like to see the world?
How to hold you when it hurts?
Your eyes. They drift through hazy light
The cruelty of circumstance and time
I don't wanna wake you up
It's clear you'd rather be elsewhere
I'd rather be in love
